

GUARANTEE FARM WORKERS THE RIGHT TO VOTE

YES ON 14

Why we need Proposition 14. For eleven heartbreaking years farm workers in California have been struggling for the right to a decent life for themselves and their children. And the right to vote in secret elections for a union of their choice.

Last year, at last, a law was passed and a Farm Labor Board created to see that the elections were honest. Farm workers rushed to vote. But the big corporate growers didn't like the results of the elections so they put pressure on a small group of state legislators and cut off funds for the Board.

The result: no more elections. No more law and justice in the fields. An invitation to the growers to go back to child labor, spraying pesticides on workers, beating up farm worker organizers.

That's why PROPOSITION 14 is so important. The people themselves can now guarantee the right of farm workers to vote in secret elections...a right that can't be taken away by lobbying pressures by corporate growers.
