

William Aaron Nierenberg Biography

William Aaron Nierenberg was born in New York City on February 13, 1919. After graduating from Townsend Harris High School, he received three degrees in physics: the B.S. from City College of New York in 1939, the M.A. and Ph.D. from Columbia University in 1942 and 1947 under the direction of I.I. Rabi. Nierenberg's national reputation as a scientist developed from his experimental and theoretical work in low-energy particle physics during the 1950s at the University of California, Berkeley. Since 1965 when he became director of the Scripps Institution of Oceanography, he has contributed as administrator, consultant, and advisor in the areas of oceanographic research, military defense, and the global environment.

After graduating from Columbia University, where he participated in the Manhattan Project, Nierenberg became an assistant professor at the University of Michigan, 1948-50. In 1950, he joined the University of California, Berkeley physics department where he formed the Atomic Beam Laboratory, concurrently founding

the Atomic Beam Research Group at Berkeley's Lawrence Radiation Laboratory. His research during this period, 1950-65, resulted in over 100 publications relating to many theoretical and experimental areas within low-energy nuclear physics, especially magnetic moments and nuclear spin. It is for this work that he was elected to the National Academy of Sciences in 1971.

While yet primarily a physicist, Nierenberg began work in oceanography and scientific advising while still at UC-Berkeley. On sabbatical from Berkeley in 1953-54, he served as project director of Columbia's Hudson Laboratories, where he worked on underwater sound studies, his first research related to oceanography. In 1958, he began his first national consulting and advising when he acted for two years as consultant to the National Security Agency and as a member of the President's Science Advisory Panel on Antisubmarine Warfare. He promptly moved on to the international arena, developing his career as statesman of science to be NATO's Secretary General for Scientific Affairs in Paris, serving concurrently as Professeur Associate of the University of Paris (1960-62). Nierenberg had become fluent in French during a year at the University of Paris as an undergraduate in 1937-1938. In 1962, he joined JASON, an independent group that advises the Department of Defense on scientific matters related to national security. This has been his "longest continuous service." He served as chairman during the early 1980s.

Nierenberg was appointed S.I.O.'s seventh director on July 1, 1965. Nierenberg was also vice chancellor of marine science, professor of physics and geophysics, and dean of S.I.O.'s graduate program. He came to Scripps Institution of Oceanography at a time of increasing public interest in the oceans. For oceanography to develop fully as a field, however, Nierenberg felt it was necessary to improve funding and to invest in engineering, equipment, buildings, ships, and personnel. While director, he supervised a five-fold increase in S.I.O.'s budget, obtaining funding from federal, state, and private sources. He expanded the graduate education program and started an applied ocean sciences program, which stressed both engineering and oceanography. Among the first to recognize the value of satellites and computers in oceanography, Nierenberg started the first use of large-scale computers aboard research vessels at S.I.O., obtained remote access to the CRAY Supercomputer at UCSD, and established the first remote sensing satellite facility at an oceanographic research center.

"I try to start one new project each year," he said. Among these were the JOIDES Deep Sea Drilling Project, which was operated by S.I.O., and NORPAX, or North Pacific Experiment, which studied the impact of the air-ocean interface on short-term climatic changes. Many new research vessels and buildings were added during Nierenberg's administration. Notable among these was R/V Melville, the first in a series of research vessels designed specifically for oceanographic work. Nierenberg increased cooperative programs with other institutions and strengthened ties with outside organizations and agencies at local, state, national, and international levels. His awareness of the scientific political climate helped keep S.I.O. at the forefront of scientific advances.

Nierenberg, however, described his own primary role as that of advocate for the S.I.O. faculty and staff. He believed S.I.O. owed its success to its "hundreds of varied research programs, its bright, young, hard-working students, and its mission-oriented laboratories." According to his successor, Edward A. Frieman, Nierenberg "brought the institution to the forefront of modern science by spearheading innovative programs, initiating new technologies for oceanography, and recruiting outstanding faculty and staff."

Nierenberg retired in 1986, and was appointed director emeritus and professor emeritus. Edward Allen Frieman was next appointed director of S.I.O., a position he held ten years until his retirement in 1996. During his 21 years as director of an ever-growing research institute, Nierenberg was extremely active in science policy, serving extensively on committees and panels for the National Academy of Science's National Research Council (NRC) and the National Science Foundation's National Science Board (NSB), as well as on NASA's Space Advisory Board and the President's National Advisory Committee on Oceans

and Atmosphere (NACOA).

Bill Nierenberg died of cancer at his home in La Jolla, California, on September 10, 2000.

Atomic Beam Magnetic Resonance. *Physica* 3, Vol 1, No. 1. *Zeeman Centennial Conf. Amsterdam, September 6-11, 1965*, 18-28.
With P.A. Vanden Bout, V.J. Ehlers and H.A. Shugart. Hyperfine-Structure Separations, Nuclear Magnetic Moments and Hyperfine-Structure Anomalies of Au¹⁹⁸ and Au¹⁹⁹. *Phys. Rev.* Vol. 185, No. 4, 1078-1084.
Oceanography Tomorrow. Tutorial Lecture Series, Annual Technical Meeting, Washington DC. *Proceedings of Inst. of Environmental Sciences*, 63-68; *SIO Contributions*, Vol. 37, 2012-2017.

1968

- Undersea Warfare/Militarized Oceans. Chapter "Militarized Oceans". *Unless Peace Comes*, *The Penguin Press*, 109-119. London. Edited by Nigel Calder, Allen Lane.
What's Behind our Manpower Shortage. *Ocean Industry Digest*. Vol. 3, No. 5.
Toward a Future Navy. *Science and Technology*. October 1968. pp 72-82.

1969

- DCPG-The Genesis of the Concept. *IDA Journal of Defense, Series B, Tactical Warfare*. 6 pp. *SIO Archives*.
Oceanography. *Britannica Book of the Year, Encyclopedia Britannica*.
Technical and Political Problems of the Ocean Floor. *The Colorado Quarterly, Letters to the Editor*. Vol. XVIII, No. 2, Autumn, 167-78.
With W.H. Munk. High Frequency Radar Sea Return and the Phillips Saturation Constant. *Nature*, Vol. 224, *Letters to the Editor*.

1970

- Space Quantization and the Breit-Rabi Formula. *A Tribute to I.I. Rabi on the Occasion*

of his Retirement from Columbia University. Delivered on 23 May, 1967, printed in 1970, pp 64-76. *SIO Archives.*

1971

DCPG-The Genesis of the Concept. *Research/Tactical Warfare.* Declassified for use letter, 6 pp. *SIO Archives.*

1972

With W.H. Munk. Sea Spectra and Radar Scattering. *Institute for Defense Analyses, Note N-817, Contract DAHC15 67 C 0011.* *SIO Archives.*

1973

Sea, Land and Man. *Cry California, Summer 1973, Vol. 8, No. 3.*

1978

The Deep Sea Drilling Project after Ten Years. *American Scientist*, vol. 66, No. 1, 20-29.
Don't let politics proscribe climatic research. *Ceres* , 23-30.

1979

Thirty-Eighth Richtmyer Memorial Lecture of the AAPT. *Bulletin of the American Physical Society.* Series II, Vol. 24, No. 1, Jan. 1979, pp 38. *SIO Archives, Nierenberg Papers, MC13, Box 168, f. 14*

1980

With R. Revelle. E.C. Bullard Memorial, 5 pp.
Cyrano, Physics, and Possibly Aristotle. *Phi Beta Kappa Lecture, San Francisco, SIO Ref. No. 81-23.*

1981

The U.S. Navy and Satellite Oceanography. *C.H. Davis Lecture Series.* Fall Lecture, 11-32. *SIO Archives.*

1982

On the Maximum Height of Internal Waves. *SIO Reference No. 82-30, 15 pp.*
With G. J. Macdonald et al. The Long-Term Impacts of Increasing Atmospheric Carbon Dioxide Levels. *Ballinger Publishing Company, 252 pp.*

1983

With P. Brewer et al. Changing Climate. Report on the Carbon Dioxide Assessment

Committee. *National Academy Press*. 496 pp.
Science and Society-Youth to Maturity. *University of Southern California, Los Angeles* Speech. U.S. Centennial lecture. *SIO Archives*.
With F. Spiess, V. C. Anderson and F. Fisher. Philip Rudnick. Obituary. *Physics Today*.
July 1983, pp 78-79.

1984

Mid-Ocean Floating Airfield-A Summary. *SIO Archives*.
Mid-Ocean Bases. Draft, 5 pp. *SIO Archives*.
Report of the Acid Rain Peer Review Panel. *Acid Rain Panel Report, Executive Office of the President*. 92 pp. *SIO Archives*.

1986

Cyrano Physicist. *American Philosophical Society*. Vol. 130, No. 3, 354-361.
Interview with Professor W. Nierenberg, by Dr. F. Asserud. 26 pp. *SIO Archives*.
Acid rain. Draft. 19 pp. 7/23/86, *SIO Archives*.
Innovation and Education Sigma XI. Centenary/UCLA. 5 pp. *SIO Archives*.
CO₂ Briefer, 10 p. *SIO Archives*.

1987

Some Statistics of ADI. 11 pp. *SIO Archives*.
DOE/Ecological Research Meeting. *Speech*. *SIO Archives*.
Scripps Pier Groundbreaking. *Speech*. *SIO Archives*.
CCNY/Research & Scholarship Day. *Speech*. *SIO Archives*.

1988

The Oceans. *National Geographic Society*., *Earth '88, Changing Geographic Perspectives*, 284-299.
Dedication of WAN Hall. Thank You address. *SIO Archives*.
The Oceans. *Committee for Research and Exploration Centennial Symposium*. National Geographic Society, Washington DC, 38 pp. *SIO Archives*.
Eulogy-I.I. Rabi. *Columbia University*. *SIO Archives*.
Atmospheric CO₂: Causes, Effects and Option. *The Bridge*. Vol. 18, No. 3, 4-11.
Adaptation to Carbon Dioxide Effect said Likely. *Pace Synthetic Fuels Report*, 1-27/30. *SIO Archives*.

1989

Atmospheric CO₂: Causes, Effects & Options. *Chemical Engineering Progress*. Vo. 85, No.8, 27-36.
SBAM Groundbreaking Ceremony. *Speech*. *SIO Archives*.

1990

Scientific Perspectives on the Greenhouse Problem. *The Marshall Institute*, 36 pp. *SIO Archives*.

- Exaggerated Global Warming Scenarios Impede Urgent Climate Research. *The Scientist*, 18.
- Committee on Science, Space & Technology before the Subcommittee on Intr. Science Co. *Congress*, 207-212.
- House Committee on Science, Space & Technology. Statement. SIO Archives.
- Global Storming, Article, *London Evening Standard*, 27.
- Science and Public Policy. *Wright Science Colloquium Geneva*. 9 pp. SIO Archives.
- Global Warming. *Wright Science Colloquium Geneva*. 7 pp. SIO Archives.
- Geophysics Speech at Symposium on Global Warming. *Institute de la Vie, France*. 4 pp. SIO Archives.
- New Leadership for Space Exploration. *Issues in Science and Technology*. Winter 90-91, 82-86.

1991

- Global Warming: Look Before We Leap. *New Scientist*, 10.
- Altering Climate. *Talking Point, New Scientist*.
- Altering Climate. *San Paolo Institute*. Turin. Speech, 5 pp. SIO Archives.
- Roger R.D. Revelle. Biography. *Proceedings of the American Philosophical Society*. Vol. 136, No. 4.
- Deep Sea Drilling-Lessons Learned. Draft. *Speech 8/21/91*. 13 pp. SIO Archives.
- Climate Change. Congress in Buenos Aires. *World Petroleum Congress Session 33*. Environment & Health Matters, 10/22/91.

1992

- The 1992 EPRI/SIO Conference on Global Warming. SIO, 5 pp.
- Science, Policy & International Affairs: How Wrong the Great Can Be. *Geneva Environmental Meeting*. SIO Archives.
- SBAM Dedication. Speech. SIO Archives.
- Roger R.D. Revelle. Biography. *Physics Today*. February 1992, 119-120.
- Encyclopedia of Earth System Science, Editor-in-Chief. *Harcourt Brace*.

1993

- Cambodia Talk. Speech/SIO. SIO Archives.
- Introduction to the 1992 EPRI/SIO Symposium on Global Warming. *Energy*. SIO Archives.
- Deep Sea Drilling-Lessons Learned. *La Jolla 5th Congress the History of Oceanography*.
- Opening Remarks, Jim Arnold Fest. Speech. SIO Archives.
- Science, Policy and International Affairs: How Wrong the Great Can Be. *Environmental Conservation*. Vo.. 20, Nr. 3, 195-197.
- Looking Back Ten Years. *IIASA, Vienna*. 10/13/93 Meeting, 7 pp.

1994

- Policy and Science Flow. *Workshop in Atlanta, GA*. 3/9-10/94, 6 pp. SIO Archives.

1995

- Global Warming. *International Seminar, Banaras Hindu University, India.*
Environment, Sustainable Development and Human Health, 2/15/95. SIO Archives.
Global Warming II, *Draft for Bridge.*
Progress and Problems: A Decade of Research on Global Warming. *The Bridge, Vo. 25,*
No. 2, 4-9.
Looking back 10 years. *Energy Policy* . Vol. 23, No. 4/5, 283-288.
Encyclopedia of Environmental Biology, Editor-in-Chief. *Harcourt Brace.*
Deep Sea Drilling- Lessons Learned. *Proceeding of the Symposium on Future*
Challenges in Science,. Ocean Drill, SIO Ref 95-15.,5-12.
Statement presented at the Hearing before the Subcommittee on Energy and
Environment of the Committee on Science, U.S. House of Representatives One
Hundred Fourth Congress, First Session November 16, 1995, *No. 35.* 111-129,
Questions submitted by the Honorable George E. Brown, Jr., Ranking Democratic
Member, Committee on Science. 1128-1136.

1996

- Harald Ulrik Sverdrup 1888-1957. A biographical memoir. *The National Academy*
Press, Vol. 69. 38 pp.
Climate change for Engineers. Special Seminar Series on Energy Technology,
Conservation, Environment Impact and Policies. *UCSD/CECR.* SIO Archives.

1997

- Science and Engineering Policy and Who Cares? Speech, *New York Academy of*
Sciences, 2/27/97.
Let's Not Rush Global Warming Pact, Article, *Arizona Republic, 9/21/97.*

1998

- Global Warming: In Search of Good Science, Good Policy, 2/9/98
John Dove Isaacs, Speech, Dedication of John Dove Isaacs Building, SIO, 9/10/98

1999

- Diversity of Fishes, Article, *Oceanography Magazine, Vol 12, 3/99.*
Global Warming, Speech, *Doctors for Disaster Preparedness, Seattle, 6/4/99.*

2000

- ONR and Science: Building of Institutions, Speech, *Oceanography: The Making of a Science, Colloquium*, UCSD, 2/8-9, 2000
- NATO Science, Speech, *Futuribles International Conference, Paris/France*, 2/24-26, 2000.
- The League of Constant Concern, Article, *George C. Marshall Institute News*, Vol. 2, #3, Winter 2000
- Athelstan Spilhaus. A biographical memoir. *American Philosophical Society*.
- If You Can't Trust the New York Times - Whom Can You Trust? Speech. *Doctors for Disaster Preparedness, San Francisco*, 7/1/00.

WARTIME & MANHATTAN PROJECT PAPERS**

W.A. NIERENBERG REPORTS AT THE OAK RIDGE GASEOUS DIFFUSION PLANT

- A-1259 With L. Davidson and C. Williams. High-cut Barrier Testing. March 20, 1946. *CONFIDENTIAL (1C-R196)*.
- A-1260 Et al. Process Gas Fore Pressure Curve for Norris-Adler Type "A" Barriers. March 16, 1944. *CONFIDENTIAL (1C-R195)*.
- A-1265 With I. Kaplan. Entrance Phenomenon in Barrier Channels. March 27, 1944. *CONFIDENTIAL (4M-155)*.
- A-1279 With I. Kaplan. Small Square Diffusion Cascades Operated with Production. July 27, 1944. *CONFIDENTIAL (3R-74)*.
- A-2109 With C. Williams, D. Trager and S. Visner. Investigation of Turbulent Mixing. June 15, 1944. *CONFIDENTIAL (1C-R421)*.
- A-2174 Separation in Homogeneous Barriers. December 12, 1944. *CONFIDENTIAL (1C-R439)*.
- A-2186 With I. Kaplan and E.M. Corson. A Program of Experiments on the Hydrodynamic Behavior of the 54-Stage Pilot Plant (Building K-303-2X) January 15, 1945. *CONFIDENTIAL (4-M-213)*.
- A-3213 With I. Kaplan. Enrichment in Case I Operation. March 2, 1945. *CONFIDENTIAL (AB-R-4)*.
- A-3214 A Diffusive Mixing Efficiency in Circular Channels. March 5, 1945. *CONFIDENTIAL (ab-45)*.
- A-3221 C-616 Test on DA Barriers. March 10, 1945. *CONFIDENTIAL (BC-R-6)*.
- A-3232 With I, Kaplan. On the Theory of Cascades. March 26, 1945. *CONFIDENTIAL (AB-R-11)*.
- A-3272 C-616 Performance of Building K-303-8. June 29, 1945. *CONFIDENTIAL (BA-R-223)*.

**APPENDIX
WARTIME & MANHATTAN PROJECT PAPERS**

- A-3272 Correction to A-3272, "C-616 Performance of Building K-303-8." August 7, corr.1945. *CONFIDENTIAL. (BC-M-14).*
- A-3283 Et al. Micro-Orsat Apparatus. August 4, 1945 *DECLASSIFIED. (B-CM-15).*
- A-3285 With S. Cromer, M. Inghram, E.T. Booth and C. Williams. C-616 Performance of Building 301-3. August 10, 1945. *CONFIDENTIAL.*
- A-3800 Et al. High-cut time recycle machine. September 11, 1945. *CONFIDENTIAL (BA-R-45).*
- A-3811 With H. Levi. The Ideal Cascade. November 5, 1945. *CONFIDENTIAL.*
- BA-M-41 With C. Williams, I. Kaplan and J.B. Menke. Memo to H.C. Urey: Brief Review of the Productivity and Estimated Costs of the Diffusion Method. September 7, 1945. *CONFIDENTIAL.*
- BA-M-209 With C. Williams. Cut Corrections. October 10, 1942. *CONFIDENTIAL..*
- BA-M-223 With E.T. Booth, S. Cromer, M. Inghram and C. A. Williams. NO TITLE (From abstract: The separation performance of Building K-303-8...). *CONFIDENTIAL. (BB-M-223).*
- BA-M-263 With C. Williams, J.R. Menke. Memorandum on Proposed Pilot Plant for Isotope Separation Diffusion Cascade. July 28, 1945. *CONFIDENTIAL.*
- BC-M-8 Proposed Empirical He-CO₂-P.G. Correlation. March 19, 1945. *CONFIDENTIAL.*
- KZ-488 With C. Williams. Preliminary Report on Maximum f Testing. April 15, 1943? *CONFIDENTIAL.*
- KZ-2751 A New Method of Measuring the Diffusion Coefficient of Gases. no date. *DECLASSIFIED.*
- M-2239 With I. Kaplan. Further Calculations on Case I Operation. March 26, 1945. *CONFIDENTIAL. (AB-R-10).*
- M-2241 Minimizing a Square Cascade. March 30, 1945. *CONFIDENTIAL. (AB-M-14).*

**APPENDIX
WARTIME & MANHATTAN PROJECT PAPERS**

- M-2296 Minutes of Meeting on He-CO₂-P.G. Separation Data. May 18, 1945.
CONFIDENTIAL. (BA-M-176).
- MDDC-529 With C. Williams. Micro-Gas Analysis. no date, *DECLASSIFIED NOVEMBER 4, 1946.*
- 1C-M-478 Memo to Williams re WB-014-D-15-32 Ta. January 26, 1945. *CONFIDENTIAL.*
- 1C-R-123 Theory of High-cut Holders. January 17, 1944. *SECRET.*
- 1C-R-124 Process Gas Flow Measurements. December 30, 1943. *SECRET.*
- M-2204 With I. Kaplan, R. Present, H. Levi, H. Lefkowitz, B. Schwartz. February 5, 1945.
CONFIDENTIAL. (4-M-217).
