SCRIPPS INSTITUTION OF OCEANOGRAPHY ARCHIVES

Ferguson, Nancy

Nancy Ferguson Slides, 1972-2000

Physical Description: 2 mss

Description: The accession consists of over two thousand color 35mm slides taken by Nancy Ferguson during scuba dives around the world over a period of thirty years beginning in the 1970's. The slides largely document marine life and marine environments in the Hawaii, Micronesian and Melanesia islands, Caribbean islands, Gulf of California, Philippines, and Southeast Asia (locations noted in her book). Some are numbered and labeled, but the location is rarely recorded, and only a few of the slides are dated. Some of these images were published in Ms. Ferguson's book *Bright Waters* (Ventura, CA: Eagle Ray Pub., c2002).

Underwater photography; Marine animals; Scuba diving
