Douglas Lamar Inman Papers, 1926-1988

Physical Description: 10 mss

Description: The accession consists of the papers of marine geologist Douglas L. Inman. The accession includes subject files, records of meetings and conferences, lectures and addresses, student notes from Pomona College dated 1942 and from UCLA 1946-1947, background information on UC Berkeley courses in geology and paleontology from 1926-1950, teaching notes and lectures in geology . The accession includes files documenting the floating platform and Floating Platform Project II from 1972.
