SIO Marine Physical Laboratory Records, 1942-2004

Physical Description: 4 mss

Description: The accession includes indexes to Marine Physical Laboratory photographs, slides, viewgraphs, drawings, blueprints and other material created or prepared by the MPL Photographic Laboratory. The accession includes some slides. The accession also includes a master index to MPL reports, a directory for University of California Division of War Research (CDWR) laboratory personnel for 1941-1945, and the MPL *How To Do It Book* on heat flow procedures, computations, and instruments. These records were in the custody of MPL Administrative Assistant Carolyn Ebrahimi and were maintained in the MPL administrative office.

University of California Marine Physical Laboratory was established July 1, 1946 to undertake government contract research in oceanography. Its first projects were to continue research in marine physics and underwater sound begun under Office of Naval Research contracts with the University of California Division of War Research (UCDWR) when that laboratory closed in 1945. MPL became part of the Scripps Institution of Oceanography in 1948.
