Nierenberg, William Aaron 1919-2000

William Aaron Nierenberg Papers, 1950-2000

bulk 1986-2000

Physical Description: 93mss, ½ Lmss, 1 oversize box

Description: The accession consists of the papers that remained in Dr. Nierenberg's Nierenberg Hall Office after his death. The collection includes correspondence, subject files, consulting files, photographs and other material dated 1950-2000, but consists largely of papers dated 1986-2000 documenting Nierenberg's consulting and other activities after his retirement from the directorship of the Scripps Institution of Oceanography, UCSD. The accession includes files documenting his work on the Manhattan Project during World War II, files documenting his work on JASON, and material documenting his work with scientific organizations including the National Academy of Science. The accession includes Nierenberg's rolodex address file.

William Aaron Nierenberg was an American physicist and oceanographer born in New York City February 13, 1919. He received a B.S. from City College of New York in 1939 and a Ph.D. in physics from Columbia in 1947 where he studied under I.I. Rabi. He worked on the Manhattan Project 1942-1945 and at Hudson Laboratories 1953-1954. After two years on the faculty of the University of Michigan, Nierenberg became a professor of Physics at University of California, Berkeley in 1950 and established the Atomic Beam Laboratory. He held many high level international scientific and diplomatic posts for the American government beginning in 1960, including work on national defense, acid rain, and the marine environment. He was a member of the American Philosophical Society, the National Academy of Science, the National Academy of Engineering, Sigma Xi and other scientific organizations. He chaired JASON. He held many University of California administrative positions and served as Director of the Scripps Institution of Oceanography from 1965 to 1986. He died in La Jolla, California, September 11, 2000.

Jason; National Academy of Sciences (U.S.) ; United Nations; Oceanography History
