Scripps Institution of Oceanography. Office of the Facilities Manager (Blattenberger)

SIO Office of the Facilities Manager (Blattenberger) Records, 1965-1993

BULK DATES: 1977-1993

PHYSICAL DESCRIPTION: 122 mss; 1 L mss; 1 oversize container (21"x25"), 7 mapcase folders, 1 VHS video tape

DESCRIPTION: Records of the SIO Office of the Facilities Manager, James Blattenberger, documenting space, planning, construction, facilities management, parking, telecommunications, police, computers, capital planning, buildings, Birch Aquarium, and committees. The accession documents space utilization, planning, construction, and facilities management at Scripps during the period 1976 - 1993. The collection also includes some files documenting space utilization back to 1965 which were given to Blattenberger by assistant director Jeffrey D. Frautschy.

ARRANGEMENT: The SIO Office of the Facilities Manager (Blattenberger) files are arranged in seven series: Subject Files, UCSD Capital Improvement Program, Projects, Space, Committees, Parking, and Shirley Bentley's files. The Subject Files, arranged alphabetically, include material on the administration of Scripps, the planning of space and specific facilities, files documenting conferences and meetings, and files on subjects relevant to facilities management, such as Scripps telecommunications, police, parking, and computer facilities. The UCSD Capital Improvement Program series includes information generated by Scripps when planning projects for the UCSD Minor and Major Capital Program. The Project Series includes files on specific projects, including files on virtually every building at Scripps. This series includes extensive files on the Stephen Birch Aquarium Museum, Nierenberg Hall, and IGPP II. The Space Series includes studies and lists of space use at Scripps, including periodic space audits. These files also include documentation of committee actions related to space, and memoranda documenting space assignments. The Committee Series includes files of committees on which Blattenberger served, and files of committees relevant to space planning and facilities management. These include records of the Capital Outlay and Space Advisory Committee, the Chancellor's Parking and Transportation Alternative Advisory Committee, and the Security Advisory Committee. Some records of the Marine Sciences Physical Planning Committee can be found in this series; additional MSPPC files are in the Subject Series. The Parking Series includes records concerning parking on the Scripps campus. The Shirley Bentley Series includes the files of Blattenberger's administrative assistant, Shirley Anne Bentley (1936-2005), who retired in 1994.

Provenance: Jim Blattenberger retired in 1991, returning to active duty until 1994. Archivist Deborah Day met with him to review his files in his 206 NORPAX office on 12/16/93. The files were put in storage until 5/13/94, when Blattenberger's successor, Ron Van Boxtel delivered them to Scripps Archives. The files were accessioned as 94-5 and boxed by Day according to the arrangement indicated by Blattenberger.

Related Material: Related files may be found in various SIO Office of the Director and Deputy Director collections; SIO Subject Files Records, 1890-1981; UC Institute of Geophysics and Planetary Physics (IGPP) Records (82-91), 1959-1963; and Scripps Aquarium-Museum collections.
