Volcani, Benjamin Elazari 1915-1999

Benjamin Elazari Volcani Papers, 1958-1995

Physical Description: ½ mss

Description: The accession consists of six folders of material created and collected by biologist Benjamin E. Volcani. The accession includes a few items of correspondence in English and Hebrew, manuscripts and talks including one entitled, "Dead Sea Talk." The folder include one the Weizmann Institute and one on the Hopkins Marine Station Centennial.

The accession also includes 8 color calendar printed lithographs of "Nobel Laureate Contemporaries-Portraits of Progress" by Scientific Products, a division of American Hospital Supply Corporation. These are printed color portraits by artist Tom Hayden of Nobelists Melvin Calvin, Arthur Kornberg, Fritz A. Lipmann, Hermann J. Muller, Albert Szent-Gyorgyi, Edward L. Tatum, Harold C. Urey, and Selman A. Waksman. They appear to date from the early 1960's.
